### SRC Establishment - Helping you Grow Electricity

#### Our Services Include:

##### Site Assessment:

Providing information on suitability and yield.

##### Site Planning

Mapping/Grant application work and submission.

##### Site Economics

Economic appraisal and margin analysis specifically for each farm.

##### Cuttings Supply

Elite cuttings, providing the best varieties for the land.

##### Planting

Using the most up-to-date planting equipment in the world.

##### On going Management

Advise on crop management.

##### Harvesting

Using up-to-date and highly efficient equipment.

##### Contract

Long term contracts for SRC planting to suit farm requirements.

### Reasons to use Renewable Fuels Ltd

Renewable Fuels Ltd is part of the Lantmännen Group, a co-operative of 52,000 Swedish Farmers and has the resources, experience, and latest equipment to establish, grow and harvest a high quality energy crop.

#### Experience in growing willow

Our sister company in Sweden, Agrobräusle, is market leaders in Energy Crop production with over 20 years experience.

#### Elite varieties available through extensive research

Superior willow cuttings from Sweden have been monitored in yield trials in the UK, leading to the creation of new varieties specifically adapted to UK conditions.

#### Efficient planting and harvesting equipment

Developed, tried and tested, we have the most up to date planting equipment in the world, including a 6 row Woodpecker planting machine.

#### Good contacts with end users

Contracts in place with major UK power providers to supply biomass fuel including processed energy crops.

#### Experienced and professional service

Bob Smith and his team of experts are on hand to advise growers throughout the process.

Printed on environmentally friendly paper.
